Comments made by Judges

Nelis van de Pol - South Africa

- Peter Fleck: Good start keep working on your skills
- Ron Scarpa: nice to see some new entries both nelis and vernon reminded me of the clowns at a rodeo
- Chuck Gleason:

Daniel Lariviere: Hand plant attempts right after learning to foot. You're nuts! I like it. I love the shot of the front of the boat in the beginning. Creative camera angle. yet amusing. Nothing we haven't seen before but nice editing and choice of music.

Round #1 Final Results

Jason	Lee	good edit and intro.. keep pushing yourself and you'll go far
Don	Mixon	looks like you guys had a lot of fun great fall shots
Scott	Pellaton	Havin fun
Paul	Macdonald	Friggin funny dude.

Vernon de Kock - South Africa

Peter	Fleck	How did you get that high in the tree, I wish you would of showed that
Ron	Scarpa	vernon beats nelis video just with the tree stunt
Chuck	Gleason	I hear it took you an hour to get up that tree. It would have been nice to see that in fast motion. Nice flips and hand plants. Keep hanging out with ADV and you'll be doing things on the water you never thought possible.
Daniel	Lariviere	Kind of a Jackass meets cowboy barefooter experience. I liked it! Found it entertaining. It amazes me how a barefooter who does stiff legged one foots can jump out of the boat, do hand plants and flips like a champ... Editing and choice of music helped.
Jason	Lee	same comments as for Nelis
Don	Mixon	Turn into side slide, vary impressive, smooth skiing, re-think jumping over boats, thats not a safe direction for these videos to go.
Scott	Pellaton	was he drunk?
Paul	Macdonald	nice and short

Jamie Kumlien - Wisconsin, USA

Peter	Fleck	Some nice video angles, work on some variations of your moves to make it more original
Ron	Scarpa	some good moves but weak video and light made it less entertaining than other vids
Chuck	Gleason	Unbelievable skill. Trampoline to back bomb out was da sheeet. You're ability to turn, jump, handplant or slide in any direction is unique. My best advice is invest in a GoPro. Seeing you in higher def will improve your videos tremendously. At a min, compress them at a higher bitrate.
Daniel	Lariviere	Could improve on image quality (some of the clips are blurry and have low contrast) and editing if you compare with some of the others. Music was nice, but could have used a song with more drive IMO.
Jason	Lee	nice skills but at times i felt like i was watching raw video of trick run practice. Was the video intentionally out of focus or? more "moment to moment" type editing would get a better score from me. keep it up
Don	Mixon	Jamie love the ss both ways looking for you to take it to that next level
Scott	Pellaton	needs some creative work but could be a force
Paul	Macdonald	working hard buddy. If you did ADV backwards would have been a 12!!

Jamie Kumlien - Wisconsin, USA

Peter	Fleck	Lots like you have a lot of fun
Ron	Scarpa	it's been a long winter up north and i'm sure it will get better for jacklyn
Chuck	Gleason	Great to have you in the competition. You're extremely talented. I can see you doing hand plants and ADVs in the next round.
Daniel	Lariviere	tempo which doesn't help. The one handed tumble turns were pretty nice. Definitely some potential, hope to seem more in round 2.
Jason	Lee	nice change of pace.. thumbs up. no bonus points for using a ski.
Don	Mixon	Great skiing and love that your the only girl... would like to note song choice was a little long
Scott	Pellaton	Nice work,
Paul	Macdonald	Having fun is what it is all about.

Andre de Villiers - South Africa

Round #1 Final Results

Peter	Fleck	amazing Andre, I like the adv to blind
Ron	Scarpa	great fun video and music and then i almost fell asleep waiting for something good to happen on that jet ski. i'm still waiting otherwise keep that at the dock
Chuck	Gleason	I can tell you've spent a lot of time perfecting the ADV to blind. The new front and backside heel grabs are awesome. Great video angles. I agree with others that the jetski segment should have been much shorter, or you should have ended with some footing so that wasn't the last thing on everyone's mind
Daniel	Lariviere	Andre does it again. Flawless skiing, awesome editing, good image quality, nice camera angles and transitions. Trick wise I especially liked his ADV grabs. Editing wise, I liked the handle cam but could have gone without the PWC ride at the end.
Jason	Lee	firing on all cylinders, makes me want to ski more.
Don	Mixon	Well the Bar has been raised again great Job all around
Scott	Pellaton	Get with it Champ. Bring me some good stuff
Paul	Macdonald	Sorry, but it wasn't that good. Jet Ski.

Brendan Paige - Australia

Peter	Fleck	Wow, nice job,
Ron	Scarpa	brendan has a certain style of skiing that defies gravity but still has a way to go. a little time in TX and he will be amazing
Chuck	Gleason	You are coming into Freestyle with a furry. You're like a mini-ADV in height only. On the water, you're just as confident. Work on your video editing skills (ie transitions from one clip to the next) and slow things down a bit. There's a reason ADV looks so silky smooth. It's great to have you in this competition. You're made for it.
Daniel	Lariviere	WOW! My favorite video this round. Nice editing, awesome skiing, good image quality. Lots of original shots and angles (fish eye, underwater, angle, speed and direction changes, behind the scenes, practice, falls, etc...) I especially liked his trampoline flip out of the boat, the tube jump, his attempt at the very entertaining. great cam and edit work... i want to see Brendan's next video. (i think you get the highest boom award) bonus points for crash section
Jason	Lee	Wow...showed me a more than I was expecting...watch the length of your video jmo a little to long
Don	Mixon	Too long. Good start, got some work to do
Scott	Pellaton	Looked better in real life, but still great! You can definately do better though.
Paul	Macdonald	

Zane de Villiers - South Africa

Peter	Fleck	Zane, Your videos are so creative and my score is higher than it should be for the difficulty of the footing, love the editing effort, Can't wait to see you next
Ron	Scarpa	very creative video editing made this enjoyable even though it's way below Zanes skill level. I definitely got the best laugh at the end but that's way dangerous!
Chuck	Gleason	I watch all the videos multiple times, then wait a week and see which ones stick in my mind the most. This was the top one for me. To do what you did in this video only 3 mos back from surgery and then the amount of time it must have taken you to sync the video to the song and do all the reverses is amazing. I loved the ending. You're truly nuts! Overhead shots were great. Very create use of simple tricks that keeps your interest. A clinic on why you don't have to do every trick in the book and still put out a very entertaining video.
Daniel	Lariviere	A true barefoot warrior... Awesome editing, worked great with the music. I like the skater style grabs on the side of the boat. Pretty intense for an injured guy.
Jason	Lee	pimpin... i love the music and edit. shoot when there is more sun if possible. this video would kill on youtube. lost points for no actual barefooting. get well
Don	Mixon	Loved the video great creative and fun...just really long...great skiing and better editing
Scott	Pellaton	nice camera work, lacks content. It's early!
Paul	Macdonald	skiing is a 2, video was a 14. Nice editing.

Brennan Derry - Australia

Peter	Fleck	Nice job, you must be Ken Derry's kid, If he's coaching you I will look forward to seeing your progress

2011 BarefootCentral.com Freestyle Challenge

Round #1 Final Results

Ron	Scarpa	kids got potential
Chuck	Gleason	Fun video. You're working as many Freestyle tricks as possible. I wish I was small enough for someone to throw me out of the boat. Great flips and invert hops. I hope we see more of you in the coming rounds.
Daniel	Lariviere	Looks like a mini version of ADV. Very impressed, he defiantly looks like he is having a blast. Amazed as what he can do at his age. Nice editing too. Hope to
Jason	Lee	11? whoa. nice job dude!
Don	Mixon	Great to see another Derry out on the water having a good time
Scott	Pellaton	Lots of potential, His dad should be proud
Paul	Macdonald	Awesome

Nolan Lough - Texas, USA

Peter	Fleck	Good footing and better editing than your last video, keep it up
Ron	Scarpa	i liked the video but a slow pace made it a little less exciting
Chuck	Gleason	Great music and cool skiing. The foot over foot pop to side slide is cool. You're mastering the side slides for sure. I love the underneath camera shot when your doing ADVs. I have two words for you this summer. Line steps and toe turns.
Daniel	Lariviere	Very nice! Very clean. I especially like the long butt glide to shore. Music was ok, but would have seen more of a faster tempo song that had more drive.
Jason	Lee	solid performance by Nolan.. keep pushing it
Don	Mixon	Not the best choice of songs but some great skiing
Scott	Pellaton	wow, it's been a long winter. Bring it!
Paul	Macdonald	Need something new, not just music.
